

Service Standards

Precision Turbines, Inc. offers half life, serviceable, and zero time engines to the market place. The service provided focuses on offering aircraft owners and operators a low risk, fixed price method of replacing timed out engines that are ready for overhaul. Precision Turbines will also offer an engine leasing program as the inventory of engines expands.

Precision Turbines engine exchange program provides Business Jet owners and operators with a fixed price and eliminates the unknown cost variances and down time often associated with engine overhauls. Our engine management service offers you tremendous cost savings on engine overhauls, repairs, or hot section inspections.
