**Precision Turbines Wins C-26 Contractor Logistics Support Contract**

Precision Turbines Inc. is proud to announce they have been awarded a new government contract for CLS of eight C-26 aircraft in support of the Navy. With Five offers submitted, Precision Turbines won this contract as a small business. Robert Spahr, President of Precision Turbines states: “With another new contract awarded we looking forward to continued growth and working with the government through our expertise in the aviation industry and valued relationships.”

The main office for this contract will be located in San Antonio, Texas. Facilities to maintain the aircraft will be located in: Barking Sands Hawaii, Naples Italy, Sigonella Sicily and Patuxant River, MD. The contract is expected to be completed in June 2021. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N00019-16-D-0060).

**About Precision Turbines:**

Precision Turbines main office is located in Boca Raton, Florida. They specialize in government contracts, managing corporate jet aircraft for the government. One of the primary differentiators that separates Precision Turbines from its competitors is their extensive US Military aviation background and tactical experience. At the core of Precision Turbines Contractor Logistics Support (CLS) successes, is a management team with over 50 years of US Military active duty experience and Pilot in command flight time of 45,000 hours. Their team has flown and maintained everything from T-34's, Citation, P-3's to Boeing 777.
