**Precision Turbines Wins UC-35C and UC-35D
Contractor Logistics Support Contract**

Precision Turbines Inc. is proud to announce they have been awarded a new government contract for logistics support for two UC-35C and ten UC-35D aircraft in support of the Marine Corps. With four offers submitted, Precision Turbines won this contract as a small business. Robert Spahr, President of Precision Turbines states: "We are very pleased with this award and are working hard to set up the facilities and teams to head this contract."

The main office for this contract will be located in San Antonio, Texas. Facilities to maintain the aircraft will be located in: Wichita, Kansas; Okinawa, Japan; New Orleans, Louisiana; Andrews Air Force Base, Maryland; Cherry Point, North Carolina; Miramar, California; Uvalde, Texas and a Deployment Site. The contract is expected to be completed in June 2019. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N00019-16-D-0050).

About Precision Turbines:

Precision Turbines main office is located in Boca Raton, Florida. They specialize in government contracts, managing corporate jet aircraft for the government. One of the primary differentiators that separates Precision Turbines from its competitors is their extensive US Military aviation background and tactical experience. At the core of Precision Turbines Contractor Logistics Support (CLS) successes, is a management team with over 50 years of US Military active duty experience and Pilot in command flight time of 45,000 hours. Their team has flown and maintained everything from T-34's, Citation, P-3's to Boeing 777.
